Hi again Michelle.

There is a printer RUSH in the case that the examiner cannot resolve. PCT Legal has contacted me and has indicated that they will need to resolve the continuity issue. I've asked them to keep me in the loop on their progress with that, and I will let you know as soon as they inform me that the issue has been resolved.

In the meantime, I've done the TCPB transaction for the application to remove it from the examiner's docket. Could you please make sure that the case is not sent back to the examiner?

Thanks,
Tammy

Hi Susan,

This is a printer rush which I need to get out today and need your assistance. The printer rush states that I need to verify the correct relations for PCT/US05/10741. SPEC 09/26/2006 shows relationship for PCT as continuous while the BIB sheet and the ADS shows the PCT as a 371 Natioanl Stage. My question is How do I verify which is the correct relations. Thanks!
